

WHO WE ARE

NJ ACCA is a non-profit trade association for heating, ventilating, air conditioning & refrigeration contractors in the State of New Jersey. We represent, support and serve firms and their employees who design, install, service and repair air conditioning, heating, refrigeration, air purification and ventilating systems of all sizes and complexities.

Membership includes HVAC companies of all sizes, equipment manufacturers, wholesalers and distributors of equipment, vocational and technical schools, utilities and others with an interest in advancing the HVAC industry.

VALUE

Membership in NJ ACCA provides you access to a unique community of New Jersey air conditioning contractors, suppliers and other important members of our business community. This access provides each member the opportunity to learn from each other, broaden their network, and employ best practices in their business.

Membership also provides our craft and industry with the necessary voice in Trenton to influence legislation that impacts our businesses, families and lives.

Finally, membership in NJ ACCA allows you to be a part of a growing family of professionals and colleagues that share your values, work ethic and interests.
